MD FAHREYAD HOSSAIN

Senior Full-Stack Engineer | Node.js · Go · Kubernetes

Dhaka, Bangladesh | +880 1672 260365 | fahreyadome@gmail.com | https://www.linkedin.com/in/md-fahreyad-hossain-ome-3753b4377

SUMMARY

Senior Software Engineer with 8+ years of experience building backend and full-stack web systems across telecom, B2B, mobile, IoT, and publishing. Strong in Node.js, Go, PHP/Laravel, MySQL, PostgreSQL, MongoDB, Redis, and Kafka, with a focus on API performance and production reliability. Red Hat Certified System Administrator (RHCSA), working toward CKA. Experienced with distributed teams and international clients, including a Japan-based B2B platform.

SKILLS

Languages & Frameworks: JavaScript, Node.js, Express.js, Go, PHP, Laravel, CakePHP, React, Vue.js
Databases: MySQL, PostgreSQL, MongoDB, DynamoDB, Redis, Query Optimization
Messaging & Infrastructure: Apache Kafka, Docker, Kubernetes, Linux (RHCSA), Git
Practices: REST APIs, Agile, Code Review, Mentoring, Cross-Team Collaboration

EXPERIENCE

Senior Software Engineer *Nov 2022 – Present*
Brain Station 23 *Dhaka, Bangladesh*

Backend and full-stack delivery for telecom and e-commerce products in a distributed team; mentor junior and mid-level developers through code reviews and debugging support.

Banglalink Website

- Built and maintained REST APIs and services for the Banglalink telecom website.
- Improved response times and reliability with database query optimization and Redis caching; used Kafka for asynchronous processing to reduce recurring production issues.

Banglalink Corporate Care

- Developed and supported APIs for the corporate customer care platform, integrating internal telecom systems.
- Handled data validation, error handling, and production fixes.

MyBL App

- Built and maintained the APIs behind Banglalink's MyBL mobile app.
- Used caching and asynchronous processing for reliable performance under mobile traffic.

Lapasar

- Delivered front-end interfaces and back-end services end to end, from database design and APIs to UI integration.

Software Engineer *Apr 2017 – Nov 2022*
Oceanize Bangladesh *Dhaka, Bangladesh*

Delivered and maintained 7 production applications across B2B, mobile, IoT, video, publishing, and social-management domains.

Worker Compass

- Built Laravel back-end logic, Vue.js interfaces, and MySQL schemas for a Japan-based B2B platform.
- Worked remotely with the international client on debugging, enhancements, and releases across time zones.

KK Cloud

- Built content features, APIs, and Vue.js components for a book and magazine publication platform.

Salat App

- Designed the REST API back end for a mobile app and supported client integration.

PerMo

- Built back-end and database components for a full IoT service connecting devices to Android and iOS apps.

Manavi

- Built upload, management, and playback features for a video storage site with MySQL-backed metadata.

Echo

- Built Vue.js interfaces for a social-management platform, integrated with Firebase.

Ikigai Workspace

- Built back-end logic and report queries for a system managing users and app lists with reporting.

EDUCATION

B.Sc. in Computer Science & Engineering *2012*
Stamford University Bangladesh | GPA 3.23/4.00 *Dhaka, Bangladesh*
